TOTSCo Bulletin No 23

DATE: 17 August 2023

SUBJECT: Release of One Touch Switch Industry Process v4.3 with accompanying Process Flows and Message Specification v1.1

TOTSCo are pleased to announce the release of the **One Touch Switch Industry Process v4.3**, **One Touch Switch Industry Process Flows v4.3** and **One Touch Switch Message Specification v1.1**. Click here to view the new documents.

We are making available both clean and marked up versions of the Industry Process and Message Specification to allow readers who are already familiar with previous iterations of the document to see only the sections that have changed. Please note that the Industry Process Flows have gone from v4.1 to v4.3 to remain in line with the Industry Process document, no v4.2 was released.

Please refer to the material changes and change log sections of the documentation for a list of the changes in the documents. All changes were raised by stakeholders and were considered in detail by the Industry Process Group in line with the existing change control process.
