

TOTSCo Bulletin No.63

Date: 26 June 2024

Subject: Request for feedback on the publication of the pre-production directory

Integration Testing is an important step towards OTS go-live on 12 September. As this project is a collaborative effort across the industry, it benefits from transparency whenever possible. To this end, TOTSCo would like to publish a list of the brands in Integration Testing.

This will help to provide a clearer picture of how preparations for go-live are progressing, will ensure all CPs have the same level of information and will be useful to CPs entering and participating in Integration Testing. **We are now seeking feedback on this proposal.**

Please note that the list of brands participating in trials within our production environment is already public and can be found [here](#).

Request for feedback

Please let us know by 5 Friday July, if there are any reasons why you think this information should not be published. Please send any comments to enquiries@totsco.org.uk quoting “pre-production directory publication” in the subject line. All responses are non-confidential and may be included in TOTSCo’s response to this request for feedback.
